

# DANGEROUS GOODS SEGREGATION (DGS) CONTAINER

Closed - Ready for Transport

Safe Manual Loading / Unloading

The Dangerous Goods Segregation (DGS) Container is certified as a Type II Segregation Device (ADG Approval No. W008) for the segregation of incompatible Dangerous Goods during transport and storage. The DGS Container is ideally suited for the safe manual loading and unloading of smaller packages or for palletised larger items using a custom drop in pallet.
